

Mousebait Optical Mouse

User Manual

(Model No.: QN-M8099)

Specification

- Connecting to USB or PS/2 port of computer
- Voltage: 5vDC
- Current: 55mA Max.
- Support Plug and Play function (PnP)
- High resolution: 800CPI

Use ways

PS/2 mode:

1. Shut down and power off the computer
2. Before plugging in the new mouse unplug your mouse from the PS/2 port
3. Connecting the combo inverter with the USB head of the mouse, and plug the combo inverter into the PS/2 port on the computer
4. Restart your computer. The computer will automatically recognise the new mouse

USB mode:

1. You can follow above steps to active the new mouse using the USB port
2. For the mouse support PnP function, so you can directly plug the USB head into any USB port on the computer, without shut down the computer
3. The computer will automatically recognise the new mouse

Note

1. Keep using the mouse indoor. The mouse may be damaged if working in outdoor for long time or in bad environment.
2. Keep the optical lens (which built into the bottom of the mouse) clean.

Optical Lens

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Note:

THE MANUFACTURER IS NOT RESPONSIBLE FOR ANY RADIO OR TV INTERFERENCE CAUSED BY UNAUTHORIZED MODIFICATIONS TO THIS EQUIPMENT. SUCH MODIFICATIONS COULD VOID THE USER'S AUTHORITY TO OPERATE THE EQUIPMENT.
