PHILIPS

Date: October 16, 2023

Subject: Device Model Equivalency Declaration

FCC ID: THO1141623

To Whom It May Concern:

DreamStation 2 CPAP supports the following models:

- LAX410H15C
- LAX420H15C
- LAX520H15C
- ARX410H15C
- ARX420H15C
- ARX520H15C
- BRX410H18C
- BRX420H18C
- BRX520H18C

All the models listed above are built using the same PCBA (Printed Circuit Board Assembly). Furthermore, the application firmware loaded on to each model is identical as well. The application firmware task that is responsible for controlling the radios is the identical for all models. There is no difference in how the radios are controlled between the model types.

Best Regards,
