RE: FCC ID: THQ-PC701\_ATCB002904  
Attention: Gregory M. Snyder / Brian J. Dettling

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. Please note that the manual does not appear to provide the required rf exposure statement requiring a minimum 20 cm separation between the antenna and the user. Please provide this statement in the manual.
2. Please note that the test report states the device has an N-type antenna connector, but the manual states it has an SMA type. The photos appear to show an SMA. Please also note that it is not clear if the rf connectors are unique or if the device requires professional installation. Please clearly identify the actual antenna connector involved and please make all documentation consistent with this description. Also, if this device is professionally installed, please clearly indicate this in the user manual.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
