

FCC ID: TIE-SIICL

Technical Description :

The brief circuit description is listed as follows :

- ZD401, Y401, U401 ET13X221-A and associated circuit act as VCO and PLL.
- Q401 and associated circuit act as RF Amplifier.
- U201 AT8P54A, U202 and associated circuit act as Encoder.
- S1, S2, S3, S4, S5, S6 and S7 act as Channel Switch.
- SW1, SW2, SW3, SW4, SW5, SW51, SW52, SW6 and SW7 act as Control Key.

Antenna Used :

A permanent spring antenna has been used.
