Compex Systems Pte Ltd

Date (03/01/2024)

Federal Communications Commission Equipment Authorization Branch 7435 Oakland Mills Road Columbia, MD 21046

Modular Approval Request

FCC ID: TK4WL7002E26

The following attestation addresses the requirements to support modular approval:

Modular approval requirement	Yes (provide brief statement)	No *
(a) The radio elements must have the radio frequency circuitry shielded. Physical components and tuning capacitor(s) may be located external to the shield, but must be on the module assembly	The module contains a metai shieldwhich covers all RF active componentsand circuitry to comply with FCC limits.	
(b) The module must have buffered modulation/data inputs to ensure that the device will comply with Part 15 requirements with any type of input signal	The module transits part15 compliantsignal, in which the maximum data rate isdefined by the standard and where thedata is buffered in the memory and nottransmitted in excessive data rate nor onthe over-modulated signals.	
(c) The module must contain power supply regulation on the module	The module contains its own powersupply regulation.	
(d) The module must contain a permanently attached antenna, or contain a unique antenna connector, and be marketed and operated only with specific antenna(s), per Sections 15.203, 15.204(b), 15.204(c), 15.212(a), 2.929(b)	The module uses external Dipole antenna	
(e) The module must demonstrate compliance in a stand-alone configuration	The module was tested stand- alone asshown in test setup photographs filedwith this application.	
(f) The module must be labelled with its permanently affixed FCC ID label, or use an electronic display (See KDB Publication 784748 about labelling requirements)	There is a label on the module as shownin the labeling exhibit filed with thisapplication. Host specific labelinginstructions are shown in the installationmanual .filed with this application.	
(g) The module must comply with all specific rules applicable to the transmitter. The grantee must provide comprehensive instructions to explain compliance requirements	The module complies with FCC Part 15Crequirements.Instructions to the OEMinstaller are provided in the installationmanual filed with this application.	

Modular approval requirement	Yes (provide brief statement)	No *
(h) The module must comply with RF exposure requirements	The module meets mobile device levels as shown in the RF exposure information filed with this application.	

^{*} Please provide a detailed explanation if the answer is "No."

Sincerely,

Signed:
