Description of Permissive Change

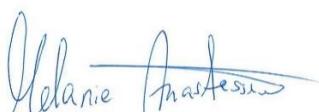

We, NetModule AG (a Belden Inc. Group Company) hereby declare that we are only and fully responsible for this CIIPC application of FCC ID: TK4WLE600VX, original granted: 06/25/2015.

The major change is to integrate multiple modules into a box, where simultaneous transmission will exist. The RF Exposure condition for this configuration is mobile. The RF modules used in co-location are FCC ID: TK4WLE600VX and FCC ID: RI7LN920.

Compliance to MPE requirements and RF Exposure is demonstrated by calculation done by 7layers GmbH (Borsigstr. 11, 40880 Ratingen, Germany).

Except for the change mentioned above, no other modification is performed.
