Subject: Attestation letter refer to Class II permissive change for FCC ID: TLZ-NU706

To whom it may concern:

The purpose of this letter is to specify that the specific antenna port permanently disabled for this specific product

For the Pandigital Novel, it is using the internal firmware of the EEPROM to permanently disable the function of Antenna 2, so that only antenna 1 used for Pandigital Novel to support 1T1R. Please kindly refer to below photo as attestation.

Please contact me if you have any questions or need further information regarding this application.
