

Operation Principle

- 1.K1 Buttons to set FM frequency, setp=0.1MHz
2. Range of FM frequency:88.1MHz-107.9MHz
3. MCU control Transmitter IC and KB236 to Transmitting Data.
- 4.7.6MHz crystal and 4MHz crystal
5. Power supply: DC 5V from iPond &iPod or car's power source.
6. Antenna is printing antenna
