**TECHNOLOGIES  
TO BE, INCORPORATED**

Federal Communications Commission  
Equipment Authorization Branch  
7435 Oakland Mills Road  
Columbia, MD 21046

**Subject: Request for Confidentiality  
FCC ID: TMKRC2500**

Dear Sir or Madam:

Please respect the confidentiality of the following items and withhold them from the public in accordance with 47CFR.457 and 47CFR.459:

Any schematic, parts list, block diagram, theory of operations, or pictures of the inside of the product that is submitted by Technologies To Be, Incorporated to the FCC should be regarded as "Trade Secrets" as specified in 47CFR.457(d). Such material should not be disclosed to the public or anyone other than Technologies To Be, Incorporated.

The electronic assembly will not be sold to utilities. They will instead be leased without the right of resale and without the right to reverse engineer. This distribution structure was selected in order to maximize our control over the electronics, in order to reduce the possibility of undesirable parties breaking the encryption process. Also, this device is installed on the end-users facility in a locking steel box at a secure location. The above listed material contains trade secrets and is not available to the public or end user. Further, because the electronic assembly gives utilities the ability to remotely control utility infrastructure, any release of this documentation will ease the task of outside parties breaking our encryption system, which will in turn reduce the security of our nation's utility infrastructure.

If you have questions, then please feel free to contact me at (407) 737-0808. I can also be reached by e-mail at [gfuller@ttbi.com](mailto:gfuller@ttbi.com)

Sincerely,

Glenn Fuller  
Vice-President for Utility Operations  
Technologies To Be, Incorporated
