

## Attestation Letter

To: Federal Communication Commission

Please kindly be notified that we, Harman Consumer, Inc herein request to revise test report of FCC ID: TN5RB85A00RE for the following reason:

1. The original report **EM201100293-1** was tested by engineering sample. But the Radiated Field Strength of Fundamental of production sample was significantly higher than the engineering sample, so we retest it using production sample and revised all results in report **EM201100293-2**.

We accept responsibility for having reviewed the revised test report.

Please kindly permit the revised.

Thank you.

Sincerely,

Name: Tim Huang
