

User manual

DIRECTIONS:

-USING THE CHARGER:

To prevent electric shock, do not touch the plug or electrical outlet if your hands are wet. Also, promptly remove the charger from the outlet once the charging has finished to reduce the risk of fire.

FCC ID: TNK03090TOS49M

MADE IN CHINA

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

-USING THE BATTERY:

1. Do not attempt to break the battery pack. If contents of battery come in contact with skin, wash with soap and water immediately. If irritation persists, consult a physician.
2. Use the car on dry surfaces only. Wet surfaces may cause the car to short circuit.
 3. Dispose of batteries properly.
 4. If the car stops functioning properly, it may be due to excessive heat. During this time, do not attempt to remove the battery pack, as it may be very hot. Allow the vehicle to cool down. Once cool, the vehicle should return to its normal operating state.

"NOTE: THE MANUFACTURER IS NOT RESPONSIBLE FOR ANY RADIO OR TV INTERFERENCE CAUSED BY UNAUTHORIZED MODIFICATIONS TO THIS EQUIPMENT.SUCH MODIFICATIONS COULD VOID THE USER AUTHORITY TO OPERATE THE EQUIPMENT."

NOTE:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
