

## BLUETOOTH TINY HEADSET P/N NHSTH4C2XXX

### USER GUIDE

**Declaration of Conformity.** We declare that product NHSTH4C2XXX conforms to the R&TTE Directive 1999/5/RC .

FCC ID: TNZNHSTH4C2XXX  
CE 0678

#### Note

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

End users must follow the specific operating instructions for satisfying RF exposure compliance.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

Notice: Any changes or modification not expressly approved by the party responsible could void the user's authority to operate the device.

### GETTING START

Remove all components from the package. Items in the pack include: Bluetooth headset with Ear Hook, Ear Cap, User Guide, Lanyard (optional) & Mains Adapter. Please check the contents carefully and contact your local dealer immediately if there are any shortages.

### GETTING TO KNOW YOUR HEADSET

Please note some models of headset will differ slightly in style and the functionality may vary according to their specifications

### CHARGING YOUR HEADSET

Before using the headset, you must charge the headset for approximately two hours. When fully charged, the battery provides up to 8 hours of talk time and up to 150 hours of standby time.

**Please note talk time is also a function of the mobile phone and factory determined settings of the phone so you may find this figure is reduced under certain conditions.**

#### To charge the headset

1. Plug the AC adapter into the headset.
2. Plug the AC adapter into a wall outlet. When the headset is charging, the amber LED will light up.
3. Unplug the charger cable from the wall outlet when charging has finished, the amber LED will turn off or be dim.

**Battery Indication:** The amber LED can turn off after 2/3 hours charging. This will indicate that the Headset can be used, however it is recommended that the user charges for a full 2 hours in order to fully charge the battery for normal operation.

### PAIR THE HEADSET TO YOUR MOBILE PHONE

Pairing is the process of linking the headset with your Bluetooth mobile phone. Before you use the headset with your mobile phone you must pair the devices. After this process is completed, you can use the headset only with its paired mobile phone. If you wish to use the headset with a different mobile

phone, you must repeat the pairing process with the new mobile phone. In this case, the headset will no longer work with the original mobile phone. Please refer to the user manual of your mobile phone for further information on 'How to Pair'.

**Before you pair the headset, ensure that the battery is fully charged and that your mobile is on and it is in discoverable mode. If the headset battery is low then amber light will flash.**

#### To pair the device

1. Turn on the mobile phone and place it within 10 meters of the headset. Ensure the Bluetooth is ON in the phone.
2. With the headset turned off, press and hold the Talk button for about 5 seconds. The blue LED quick flash 4 times, and you will hear the "PAIR" tone to indicate the headset has entered the pairing mode.
3. Release the Talk button. The headset is now in Pairing Mode. The blue and amber LEDs will flash alternatively during the pairing mode.
4. Initiate the device discovery feature on the mobile phone. Refer to the mobile phone user guide for instructions for initiating this feature.
5. When prompted by the mobile phone, enter the headset pin code 0000. When pairing is complete, the blue LED on the headset will flash at three-second intervals and the headset will be placed in standby mode, ready to make and receive calls.

If disconnection or lost link occurs, it maybe due to the following reasons:

- a) The range is over 10 meters between both headset and the mobile phone.
- b) Mobile phone disconnected the link to conserve power or enable other function.
- c) Either device has been switched off.

**Note:** The headset, in normal operation, should maintain the connection with the mobile phone at all times once the pairing mode and connection has been established between the two devices.

**To cancel pairing mode** - While you are in pairing mode, you can cancel the pairing process and turn off the headset. Press and hold the Talk button for about 3 seconds. You will hear the "OFF" tone and after LED will quick flash 4 times and the headset will turn off. Release the Talk button.

### FITTING THE HEADSET ON YOUR EAR

The Headset is designed to fit comfortably in your ear. The ear hook can be fixed into the headset on both sides, which allowing you to position on right or left ear. Please note the ear hook is designed such that it can fit over the ear or under the ear as well as right and left ear.

**To add the ear cap** - Stretch the ear cap around the end of the speaker

**To add the Optional Lanyard** - simply connect via the small hole at the base of the ear hook.

**To place the headset on your ear** - Place the headset speaker in your ear with the microphone angled towards your mouth. The headset should fit snugly in your ear. However, if the speaker is not fit your ear well, you can change to other size of the ear cap that is provided with your headset.

#### SWITCHING ON YOUR HEADSET

**To turn on the headset** - With the headset turned off, press and hold the Talk button for about 2 seconds. You will hear an “ON” tone (**four ascending “beeps”**) and the LED will quick flash 5 times. The headset turns on and is placed in standby mode, ready to make and receive calls. After turn on the headset, the headset will try to connect the last paired/connected device automatically.

**To turn off the headset** - With the headset turned on, press and hold the Talk button for about 5 seconds. You will hear an “OFF” tone (**four descending “beeps”**) and after the LED will quick flash 4 times, the headset is turned off. Release the Talk button.

#### MAKING CALLS

You can make calls from your mobile phone, or directly from headset using voice dialing and last number redialing (if it's supported by the phone)

**To make calls from your mobile phone** - Dial the call from your mobile phone and the call is automatically connected to your Headset.

**To make calls using voice dialing (if supported by your mobile phone)** - With the headset in standby mode, press (click) the Talk button on the Headset, and you will hear the “VD” tone (**Two short beeps**).
