Federal Communications Commission

Dear Application Examiner,

Request For a Modular Approval – FCC ID: TOB-LZM2102

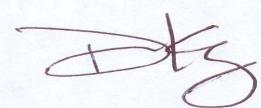

Logitech Inc, - Canada, is seeking for FCC authorization for the use of their RF Module "TOB-LZM2102" as a modular transmitter. The requirements of the FCC Public notice DA00-1407 is met.

The following requirements are fulfilled:

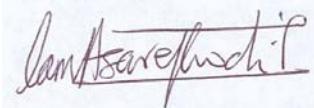

- 1. The Modular Transmitter must have its own RF shielding**
The radio portion of the module is contained in its own RF shielding. See photos in exhibits.
- 2 The modular transmitter must have buffered modulation/data inputs**
The modulation/Data inputs are buffered.
- 3 The modular transmitter must have its own power supply regulation**
The modular transmitter has its own power supply regulation.
- 4. The Modular Transmitter must comply with the antenna requirements of Section 15.203 and 15.204c**
The transmitter shall only be used with tested antenna.
- 5. The Modular Transmitter must be tested in a stand-alone configuration**
The EUT was tested in the requested "stand-alone" configuration
- 6. The Modular Transmitter must be labeled with its own FCC ID number**
The EUT will be labeled with its own FCC ID number. The label is specified in related exhibit. If the Module is installed inside of an end-point; the label will not be visible. In this case the OEM customer will be instructed to how to apply the exterior label.
- 7. The Modular Transmitter must comply with any specific rule or operating requirements applicable to the transmitter and the manufacturer must provide adequate instructions along with the module to explain any such requirements.**
The EUT is compliant with all applicable FCC rules. Detail instructions are given in the users Guide.
- 8. The Modular Transmitter must comply with any applicable RF exposure requirements.**
The EUT is in compliant with RF exposure requirements, see users Guide for details.

Please contact us if you have any additional questions.

Sincerely,
