## Request for Short Term Confidentiality

September 10, 2008

Telecommunication Certification Body  
Underwriters Laboratories Inc.  
333 Pfingsten Road  
Northbrook, IL 60062

RE: Certification Application  
FCC ID: TS9-DVS-R-200

The purpose of this letter is to request that the following materials that have been submitted in support of the Form 731 Application for equipment authorization of the DVS System under FCC rules 0.457 and 0.459 be treated as confidential and to request that it not be made available to the public:

- Description of the product and it's operation
- All assembly drawings

We are requesting that the material be treated as confidential because publication of these materials would enable competitors to do cost estimates of our products to their advantage and to learn details of the operation and control that we would normally treat as company confidential information and it would not be made available to our customers, competitors or the public. Availability of this level of detail of our products to our competitors could place us at a considerable disadvantage in a competitive marketplace.

Thank you for your cooperation.

Respectfully,

Brendan R. McSoley  
Sr. Design Engineer
