FCC Information to User

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution

Modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC Compliance Information : This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation

IMPORTANT NOTE:

FCC RF Radiation Exposure Statement:

This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20 centimeters between the radiator and your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

RF Exposure Statement :

The equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This device and its antenna must not be co-located or operation in conjunction with any other antenna or transmitter.

using Fm transmitter

The FM transmitter in the speakerphone allows you to transmit calls and music from your phone to the car stereo.

- Connect your phone and your speakerphone.
- Tap the FM button to enter FM mode. The FM status icon will turn solid red and an FM frequency will be announced.
- Manually turn your radio into the same FM frequency and you are now ready to transmit calls or music from your phone to your car stereo.
- The FM transmitter will automatically turn off after 10 minutes if the function is not used.

Change Fm frequency

Jabra CRUISER will always transmit calls and music on the most recently used FM frequency. However if sound performance is unsatisfactory it is possible to select a new FM frequency.

- Enter FM mode.
- Press volume up button until “searching” is announced.
- When a new frequency is found and announced, tune your radio manually into the same FM frequency.

A tap on the volume up/volume down button will change the frequency on your Jabra CRUISER by 0.1 MHz.

EN

Change voice announcement language

Voice announcements give you a more convenient and safe use of Jabra CRUISER. There are 5 supported languages: English, Spanish, French, German and Russian. Default language is English.

- Enter pairing mode by pressing the answer/end button for 5 seconds.
- Press the FM button for 2 seconds and the current language will be announced.
- Press the volume up/volume down to select a new language.
- Select preferred language and press the FM button for 2 seconds. The new language will be announced.

For Italian, Portuguese, Chinese Mandarine please go to www.jabra.com and download an alternative software version.

6. PLACE THE JABRA CRUISER IN your vEHICLE

The Jabra CRUISER sits discreetly and conveniently on the sun visor. For optimal sound quality place the Jabra CRUISER right in front of you and speak directly into the speakerphone.

Note: Use of the FM transmitter portion of this product is restricted in some countries. Please check your local legislation.

Calls and music streamed to your FM radio using the FM transmitter can potentially be picked up by another radio in close proximity. This is only relevant when using the FM transmitter mode.
