Basic Component List

Main Frame, User Manual, Music Friend CD,
USB Cable, LINE-IN Cable, Earphone,
Necklace, Arm Band, Carrying Case

Product Features

- ▶ Apply the WMDRM10(JANUS)
- ▶ Various Files Generating Function (MPEG1/2 /2.5D LAYER3, WMA, OGG)
 - WMA
 - Sampling rate : 8K~48KHz
 - Bitrate : 5K~384Kbps
 - Channel : Mono/Stereo
 - OGG : Q1~Q10
- ▶ 96×96 dot, 65Kcolor(Full Color) OLED Use
- ▶ USB 2.0 Supported
- ▶ Generating Multimedia Function
- ▶ NORMAL, ROCK, JAZZ, CLASSIC, POP, 3D, DBB, USER1,USER2 EQ Supported
- ▶ FM Radio and Recording Function
- ▶ Recording Voice and External Device Function
- ▶ Visual Display Function
- ▶ Message INTRO Function
- ▶ Section Repeating Play Function
- ▶ Repeating (File, Folder, Shuffle, All) Play Function
- ▶ Media Sync Function
- ▶ Firmware Upgrade Function
- ▶ Portable Storage Device
- ▶ OGG Vorbis File Supported
- ▶ Infinite Folder Function
- ▶ TIME STEP Function
- ▶ JPG image display function
- ▶ PLAY LIST Function
- ▶ Sleeping Function
- ▶ Resume Function in seconds
- ▶ Play Speed Control Function
- ▶ Temporary Pause Function for Recording
- ▶ STOP WATCH Function

Name of each part

* Jog button : Play/Pause, FF, REW, Volume Up/Down

Menu Structure

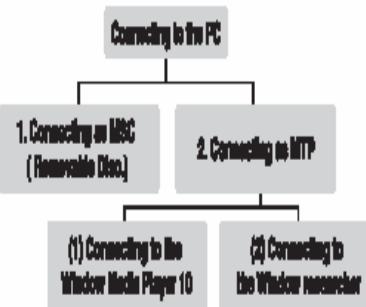

MENU

PLAY	DISPLAY	RECORD	SET	FORMAT	S-WATCH	INFORM
REPEAT	CONTRAST	MIC	POWER	No		VERSION
-NORMAL	OLED_OFF	-BITRATE	SLEEP	Yes		MEMORY

-SHU	-NORMAL	-BITRAT	DEFAULT			
-SHU_REP	-FAST	-SYNC				
-INTRO	M-SYNC	-S-TIME				
RESUME	LANGUAGE	RADIO				

Basic Control Menu

1. Turn on the JOG Switch.
2. Press Menu/Mode button.
3. Select the wanted item by pushing JOG switch to the left/right.
4. Enter to the sub-item by pressing JOG switch.
(Pressing Menu/Mode goes to the previous menu, Long pressing escapes the menu mode)
5. Finish the setting by pushing JOG switch to the left/right.

Connecting to the computer

1. Connecting as MSC

- 1) Win98 and Win200 will connected to MSC (Removable Disc) mode automatically.
- 2) Select the general menu on menu → select USB classic menu- select MSC mode, and connect the USB cable. Then it will connected to MSC(Removable Disc)

* Win98 user should execute the No. 2) in advance of No.1), and install the Win98 driver. (Include in Installation CD)

- ※ Disconnecting the player during the data transferring will might cause fatal error.
After transferring, disconnecting the player by clicking the icon of "safely remove hardware" on the right bottom of the monitor and stopping the device in case of using Windows2000XP.

Connecting to Computer(Continued)

2. Connecting as MTP

- The condition to connecting as MTP:
- Select the general menu on menu → select USB classic menu → select MTP menu.
- Windows service pack1.0 or more should be installed.
- Windows media player 10 or more should be installed.
- Window Media Player 9.0 user should be upgrade to Windows Media 10, and then connecting to the computer.

(1) Connecting to the Windows Media Player 10

- Connect the player to the USB terminal of the computer.
- Click the icon of "Sync the Media file to this device"

Windows XP, Window Media Player 10 should be installed in computer to connect as MTP.

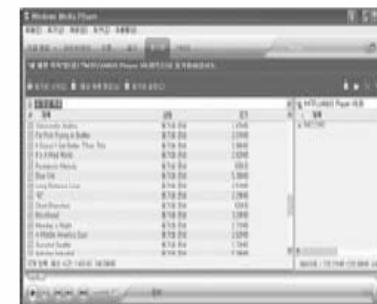

Connecting to Computer(Continued)

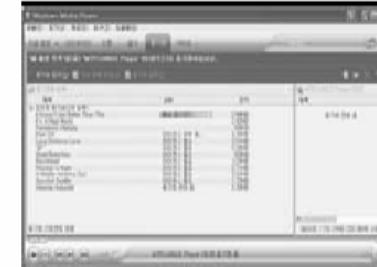

- Select the Sync. Method

- Select the Sync. List

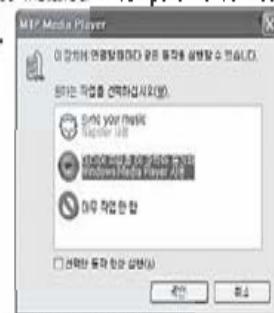

- Click the Sync. Start icon

(2) Connecting as Window Explorer.

1. Connect the player to the USB terminal of the computer.
2. Click the "Non Working" icon
Windows XP, Window Media Player 10 should be installed in computer to connect as MTP.

3. Execute the Window Explorer.

4. Click the "Net Music MTP/JANUS Player"

Connecting to Computer(Continued)

5. Music file should be copied to media folder (non support file will not be copied)
6. Other data and firmware upgrade can be copied.

Playing music file, and Navigation function

1. Power On

- 1) Press Jog button will turn on power.

2. Play/Stop

- 1) Pressing Jog button will play the music. (Repressing Jog button will stop player)
- 2) Power will automatically be off with no use (Refer to the setting P14. Power Off time)

3. Power Off

- 1) Pressing Jog button will power off (Automatically power off after setting time is passed on stop mode)

4. Selecting song and searching

JPG file Selection function

1. Press "Folder" Button
2. Move to JPG file and select the file what you want to see.
3. Press Folder button to return to previous menu.

SLEEP Function

- (On bedtime) Automatically powers off after a set-up time.
1. Move to [MENU] - [SET] - [SLEEP].
2. This can select Sleeping Time by pushing JOG button to left and right.

Play Speed Control Function

- ▶ This can control the speed slowly or fast for the part hardly heard of.

1. Move to [MENU] - [PLAY] - [PLAY SPD].
2. This can be controlled by pushing JOG button to left and right based on Normal(100%).

Temporary Pause Function for Recording

- ▶ This temporarily pauses the recording by PLAY button during the record and records by pressing PLAY button again.

Message INTRO Function

- ▶ Plays the beginning 10 seconds of each track with searching.

1. Press [MENU] - [PLAY] - [REPEAT] - [INTRO] - JOG key.
- Press [MENU] - [PLAY] - [REPEAT] - [NORMAL] - JOG key for clearing.

◆ USING MENU ◆

PLAY MENU

- ▶ REPEAT, RESUME, TIME STP, PLAY SPD and EQUALIZER can be selected by pushing JOG button to left and right.

1. REPEAT

- Can select OFF(NORMAL), REP_ONE(One track repeat), REP_FOL (Folder repeat), REP_ALL(All random repeat), SHU_FOL (Folder random repeat), SHU_REPL (Random repeat) and INTRO (rapid search).

2. RESUME

- 1)ON : Playback resumes from the location where the player is stopped temporarily.
- 2)OFF : Playback begins from the first track after the player is stopped temporarily.

3. TIME STP

- 1)This can shift rapidly during the play when user wants to skip or return to the front part.
- 2)Can set up the time as user wishes.

4. PLAY SPD

- Can control the speed slowly or fast for the part hardly heard of.

PLAY MENU

5. EQUALIZER

1) 3D

- Can set up depth of 3D effect.

2) USER EQ

- Users can control CUSTOM1, CUSTOM2 as they wish.

DISPLAY MENU

- ▶ Can select CONTRAST, OLED-OFF, SCROLL, LR LEVEL, M-SYNC and LANGUAGE by pushing JOG button to left and right.

1. CONTRAST

- Can control the brightness of LCD by pushing JOG button to left and right.

2. OLED-OFF

- Can set up the power off time for LCD by pushing JOG button to left and right.

3. SCROLL

- Can adjust the scroll speed of text to SLOW, NORMAL and FAST while playing the file by pushing JOG button to left and right.

4. M-SYNC

- Can visualize the text while playing.(file only has the text)

5. LANGUAGE

- Can select the menu language.

RECORD MENU

- ▶ Can select MIC, LINE and RADIO by pushing JOG button to left and right.

1. MIC

1) Beat rate

- High beat rate can generate high quality sound file.

- After selecting beat rate by pushing JOG button to left/right, setup the beat rate by JOG button.

Charged Services

- Malfunction due to the mishandling while using the product
- Malfunction due to the internal reconstruction by the user at will
- Malfunction due to the natural calamity such as fire, damage from sea wind, flood damage and earthquake

Notice

1. Do not drop or Impact the player against the objects. This may result the damage of the player.
2. Keep the device out of the place as following.
 - Place in very high temperature (Over 60°C)
 - Direct sunlight or near to heater
 - Inside car with closing the window (Especially in Summer)
 - Humid area such as bathroom
 - Dusty area
3. Do not use excessive force to LCD.
 - This may result the damage and cause the problem on display part of LCD.
4. Keep the player away from the strong magnets such as cash card, special card and other card using magnets. This will damage the card.
5. Damage from the use of this device and claim for damages from the third party will not be responsible to the company.
6. Damages from breaking down, repairing and loss of recording message from the other causes will not be responsible to the company.

THIS DEVICE COMPLIES WITH PART 15 OF THE FCC RULES. OPERATION IS SUBJECT TO THE FOLLOWING TWO CONDITIONS: (1) THIS DEVICE MAY NOT CAUSE HARMFUL INTERFERENCE, AND (2) THIS DEVICE MUST ACCEPT ANY INTERFERENCE RECEIVED, INCLUDING INTERFERENCE THAT MAY CAUSE UNDESIRED OPERATION.

FCC RF INTERFERENCE STATEMENT

NOTE:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures.

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio, TV technical for help.
- Only shielded interface cable should be used.

Finally, any changes or modifications to the equipment by the user not expressly approved by the grantee or manufacturer could void the users authority to operate such equipment.
