**Evaluation of Loc8tor Lite TAG**  
**FCC id: TUW-FIR1**

I have assessed the above referenced submission for the Loc8tor Lite TAG and found it to be compliant.

The following were noted and resolved during the evaluation.

**1. Test Results**

A number of clarifications were requested concerning the test report, these were all addressed and the report re-issued.

**2. RF Exposure**

It was confirmed that the device is categorically excluded from routine evaluation and below the low threshold.

**3. Label**

The original label did not give the name of the product. A new label was provided which included the product name.

**4. Agents Letters**

Initially these letters only nominated the companies involved and not individuals within the organisations. Further letters were obtained to correct this problem.

Yours sincerely

Tom Twynam
