TECHNICAL DATA SHEET

TT704 GLOSSY SILVER POLYESTER

DESCRIPTION: TT704 is a top coated glossy silver polyester film. It is coated with a permanent acrylic adhesive and backed with a #50 Kraft release liner.

USES: Ideal for UL/CSA finished product nameplates and asset identification. This high-performance material is designed for application requiring excellent solvent and scratch resistance.

FEATURES: Smudge and abrasion resistant thermal images using resin-based ribbons. Face stock resists tearing, abrasion, and heat. High performance adhesive bonds to a wide range of surfaces.

ADHESIVE: 1.0 mil acrylic

SERVICE TEMPERATURE -40ºF -302ºF

MINIMUM APPLICATION TEMPERATURE: 50ºF

UL &CSA # UL# MH19992   CSA#204415

** TT704, like all other pressure-sensitive materials, must be tested under the actual end use conditions.
