WMDQ-175AC

Version: 1.0

Date:2015/05/21

2.4GHz 802.11 b/g/n 450Mbps

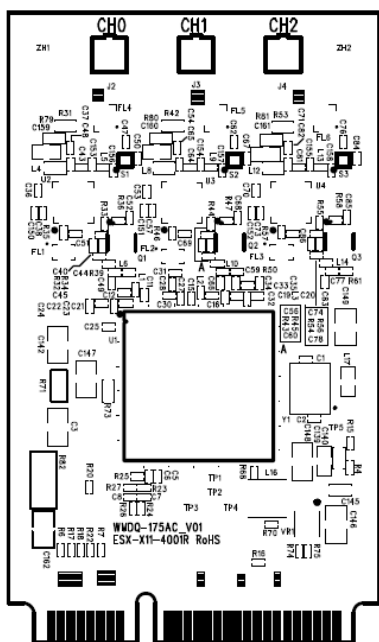

WMDQ-175AC is a 2.4G single Band 3T3R PCIe full-size mini Card Module based on the Qualcomm QCA9880 solution which features improved transmission power and sensitivity by Gemtek.

Using the QCA9880 external PA, it is the ideal cost effective solution for platform integration. With enhanced technologies such as advanced power management and receiver boost, it makes the WMDQ-175AC the ideal 2.4G 3T3R module.

General Information	
PA	RFX242
Interface	PCI Express 1.1
Operating Voltage	PCIe Slot:DC 3.3V & DC5V(for PA)
Antenna Connectors	3 x I-PEX connectors
PCB Dimensions	30mmX 50.8mm (WxL)
Temperature Range	0 to 45 °C (Operating), -20 to 80 °C (Storage)
Security	WEP,TKIP,AES, and WAPI hardware encryption
Data rates	802.11b:1, 2, 5.5, 11Mbps 802.11g:6, 9, 12, 18, 24, 36, 48, 54Mbps 802.11n: <ul style="list-style-type: none"> ● 20MHz channel: <ul style="list-style-type: none"> ✧ 1Nss: 65Mbps @ 800GI, 72.2Mbps @ 400GI (Max.) ✧ 2Nss: 130Mbps @ 800GI, 144.4Mbps @ 400GI (Max.) ✧ 3Nss: 195Mbps @ 800GI, 216.7Mbps @ 400GI (Max.) ● 40MHz channel: <ul style="list-style-type: none"> ✧ 1Nss: 135Mbps @ 800GI, 150Mbps @ 400GI (Max.) ✧ 2Nss: 270Mbps @ 800GI, 300Mbps @ 400GI (Max.) ✧ 3Nss: 405Mbps @ 800GI, 450Mbps @ 400GI (Max.)
T x channel width support	20MHz / 40MHz
Standard/Compliance	IEEE 802.11b/g/n

RF Spec	
Frequency Band	IEEE 802.11 b/g/n , 2.4GHz
Radio Stream	3T3R
Data Rate	450 Mbps
Transmit Power (Per Radio Stream) Tolerance (+/- 2dBm)	802.11b 1M : 19.5 dBm 802.11g 6M: 19.5 dBm 802.11n HT20 MCS0 : 19.5 dBm 802.11n HT40 MCS0: 18.5 dBm
Receive Sensitivity (Per Radio Stream) Tolerance (+/- 2dBm)	802.11b: CCK 1Mbps: -90dbm CCK 11Mbps: -90dbm 802.11g: OFDM 6Mbps: -94dbm OFDM 54Mbps :-82dbm 802.11n: HT20 MCS0 : -94dbm HT20 MCS7 : -78dbm HT40 MCS0 : -92dbm HT40 MCS7 : -76dbm

Dimension: 51mm * 30mm (full size)

Federal Communication Commission Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

IMPORTANT NOTE:

Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

Country Code selection feature to be disabled for products marketed to the

US/CANADA.

Operation of this device is restricted to indoor use only.

This device is intended only for OEM integrators under the following conditions:

- 1) The antenna must be installed such that 20 cm is maintained between the antenna and users, and
- 2) The transmitter module may not be co-located with any other transmitter or antenna,
- 3) For all products market in US, OEM has to limit the operation channels in CH1 to CH11 for 2.4G band by supplied firmware programming tool. OEM shall not supply any tool or info to the end-user regarding to Regulatory Domain change.

As long as 3 conditions above are met, further transmitter test will not be required. However, the OEM integrator is still responsible for testing their end-product for any additional compliance requirements required with this module installed

IMPORTANT NOTE

In the event that these conditions can not be met (for example certain laptop configurations or co-location with another transmitter), then the FCC authorization is no longer considered valid and the FCC ID can not be used on the final product. In these circumstances, the OEM integrator will be responsible for re-evaluating the end product (including the transmitter) and obtaining a separate FCC authorization.

End Product Labeling

This transmitter module is authorized only for use in device where the antenna may be installed such that 20 cm may be maintained between the antenna and users. The final end product must be labeled in a visible area with the following: "Contains FCC ID: **TVE-130503**".

Manual Information to the End User

The OEM integrator has to be aware not to provide information to the end user regarding how to install or remove this RF module in the user's manual of the end product which integrates this module.

The end user manual shall include all required regulatory information/warning as show in this manual.

Industry Canada statement

This device complies with Industry Canada's licence-exempt RSSs. Operation is subject to the following two conditions:

(1) This device may not cause interference; and (2) This device must accept any interference, including interference that may cause undesired operation of the device.

Cet appareil est conforme aux CNR exemptes de licence d'Industrie Canada. Son fonctionnement est soumis aux deux conditions suivantes:

(1) Ce dispositif ne peut causer d'interférences; et(2) Ce dispositif doit accepter toute interférence, y compris les interférences qui peuvent causer un mauvais fonctionnement de l'appareil.

Radiation Exposure Statement:

This equipment complies with IC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

Déclaration d'exposition aux radiations:

Cet équipement est conforme aux limites d'exposition aux rayonnements IC établies pour un environnement non contrôlé. Cet équipement doit être installé et utilisé avec un minimum de 20 cm de distance entre la source de rayonnement et votre corps.

This device is intended only for OEM integrators under the following conditions:

- 1) The antenna must be installed such that 20 cm is maintained between the antenna and users, and
- 2) The transmitter module may not be co-located with any other transmitter or antenna.

As long as 2 conditions above are met, further transmitter test will not be required. However, the OEM integrator is still responsible for testing their end-product for any additional compliance requirements required with this module installed.

Cet appareil est conçu uniquement pour les intégrateurs OEM dans les conditions suivantes:

- 1) L'antenne doit être installée de telle sorte qu'une distance de 20 cm est respectée entre l'antenne et les utilisateurs, et
- 2) Le module émetteur peut ne pas être coïmplanté avec un autre émetteur ou antenne.

Tant que les 2 conditions ci-dessus sont remplies, des essais supplémentaires sur l'émetteur ne seront pas nécessaires. Toutefois, l'intégrateur OEM est toujours responsable des essais sur son produit final pour toutes exigences de conformité supplémentaires requis pour ce module installé.

IMPORTANT NOTE:

In the event that these conditions can not be met (for example certain laptop configurations or co-location with another transmitter), then the Canada authorization is no longer considered valid and the IC ID can not be used on the final product. In these circumstances, the OEM integrator will be responsible for re-evaluating the end product (including the transmitter) and obtaining a separate Canada authorization.

NOTE IMPORTANTE:

Dans le cas où ces conditions ne peuvent être satisfaites (par exemple pour certaines configurations d'ordinateur portable ou de certaines co-localisation avec un autre émetteur), l'autorisation du Canada n'est plus considéré comme valide et l'ID IC ne peut pas être utilisé sur le produit final. Dans ces circonstances, l'intégrateur OEM sera chargé de réévaluer le produit final (y compris l'émetteur) et l'obtention d'une autorisation distincte au Canada.

End Product Labeling

This transmitter module is authorized only for use in device where the antenna may be installed such that 20 cm may be maintained between the antenna and users. The final end product must be labeled in a visible area with the following: "Contains IC:7280B-130503".

Plaque signalétique du produit final

Ce module émetteur est autorisé uniquement pour une utilisation dans un dispositif où l'antenne peut être installée de telle sorte qu'une distance de 20cm peut être maintenue entre l'antenne et les utilisateurs. Le produit final doit être étiqueté dans un endroit visible avec l'inscription suivante: "Contient des IC: 7280B-130503".

Manual Information To the End User

The OEM integrator has to be aware not to provide information to the end user regarding how to install or remove this RF module in the user's manual of the end product which integrates this module.

The end user manual shall include all required regulatory information/warning as show in this manual.

Manuel d'information à l'utilisateur final

L'intégrateur OEM doit être conscient de ne pas fournir des informations à l'utilisateur final quant à la façon d'installer ou de supprimer ce module RF dans le manuel de l'utilisateur du produit final qui intègre ce module.

Le manuel de l'utilisateur final doit inclure toutes les informations réglementaires requises et avertissements comme indiqué dans ce manuel.

This radio transmitter (IC: 7280B-130503) has been approved by Industry Canada to operate with the antenna types listed below with the maximum permissible gain indicated. Antenna types not included in this list, having a gain greater than the maximum gain indicated for that type, are strictly prohibited for use with this device

Cet émetteur radio (IC: 7280B-130503) a été approuvé par Industrie Canada pour fonctionner avec les types d'antenne énumérés ci-dessous avec le gain maximal admissible indiqué. Types d'antennes ne figurent pas dans cette liste, ayant un gain supérieur au gain maximum indiqué pour ce type, sont strictement interdits pour une utilisation avec cet appareil

Antenna model	Type	Connector	2.4G Gain	5G Gain
AK51010200	Dipole	R-SMA	4.59 dBi	5.67 dBi
LG19	PIFA	IPEX	6.38 dBi	4.34 dBi
FPC_ANT (Cable: 95mm)	PIFA	IPEX	4.16 dBi	3.32 dBi
FPC_ANT (Cable: 355mm)	PIFA	IPEX	2.87 dBi	0.91 dBi
FPC_ANT (Cable: 150mm)	PIFA	IPEX	3.57 dBi	3.11 dBi
