8 August 2006

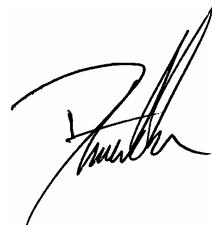

To Whom It May Concern:

To the best of our knowledge the differences between the power supplies are as follows:

	Old PSU	New PSU
(INTERNAL ITX PSU)	12V 55W Manufacturer Morex	12V 80W Manufacturer Morex (consumes additional 80mA).
(EXTERNAL AC/DC PSU) Linearity	12V 55W Manufacturer E.P.S	12V 60W Manufacturer Electronics.

Other than the differences listed above the new PSU's will have no impact on the way the RF performs as their function and requirements remain the same as the original PSUs'.

Yours faithfully  
Comark Limited
