I have a few comments on this Application. Depending on your responses, kindly understand there may be additional comments.

- 1.) Please supply the exact label artwork as this device is intended to be labeled.
- 2.) The Manual appears to be missing required compliance statements, including the "Information to User" statements of 15.21.
- 3.) The Block Diagram needs a little more detail. Kindly show where the 49.86MHz oscillator interconnects to this device. FYI: The Block Diagram should mirror the Schematic.
