Federal Communications Commission
7435 Oakland Mills Road
Columbia, MD 21046

To whom it may concern:

Impinj, Inc., hereby requests a Permissive Change Class II of the radio equipment certification for the Impinj R700 RAIN RFID Reader certification number, FCC ID: TWYR700. This product differs from the originally approved product in the following manner:

- (a) Associated circuitry – Integration daughterboard circuit board into main circuit board
 - a. Main circuit board with RF circuit remains unchanged
 - b. Daughterboard contains processor, memory, and ethernet phy chip
- (b) Functional Capabilities – Small increase in power consumption
- (c) Antenna Characteristics – No changes to the antenna characteristics of this product

I do attest that the Field strength and/or RF Output readings remained the same or are lower than the originally approved product and that they did not increase therefore qualifying this product for this application type.

Sincerely,

A handwritten signature in black ink that reads "Michelle Branum".
