Congratulations!

Start your prototype to production journey with **Azure Percept DK**

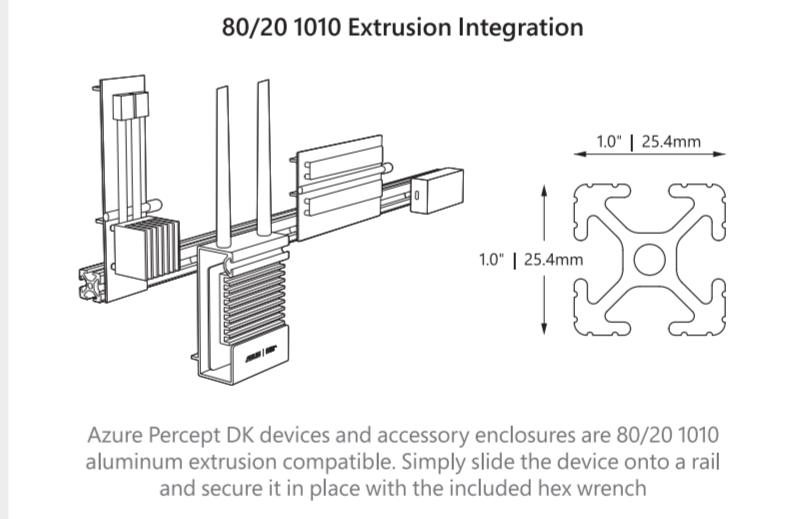

This developer kit consists of the following components to bring perception AI to your solution:

Production ready Azure Percept Vision device with camera sensor  
Reference compute board | Device enclosures with integrated 80/20 interface  
Hex wrench to unfasten and secure devices | USB and power cables  
Packaging for device transportation and storage

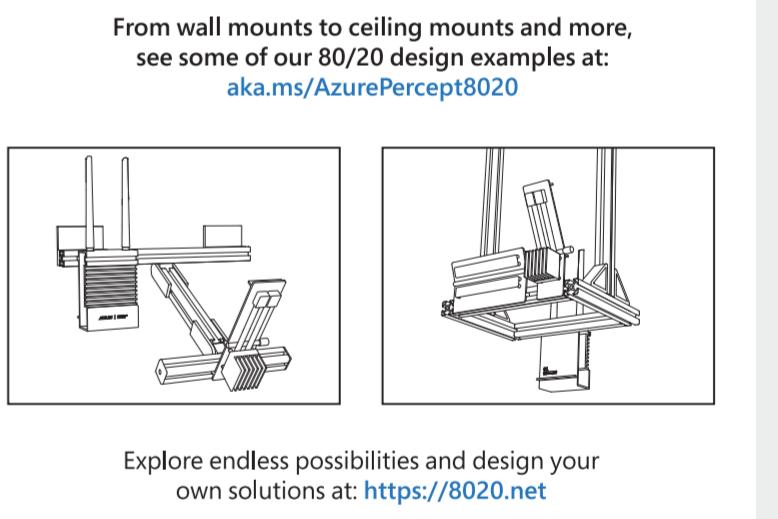

We can't wait to see the solutions you create with **Azure Percept**

To get started please visit: [aka.ms/AzurePerceptDK](https://aka.ms/AzurePerceptDK)

Wireless Network  
**xxx-xxxx**  
Password  
**xxxxxx**

Azure Percept DK devices and accessory enclosures are 80/20 1010 aluminum extrusion compatible. Simply slide the device onto a rail and secure it in place with the included hex wrench

From wall mounts to ceiling mounts and more,  
see some of our 80/20 design examples at:  
[aka.ms/AzurePercept8020](https://aka.ms/AzurePercept8020)

Explore endless possibilities and design your  
own solutions at: <https://8020.net>
