This letter is in response to the correspondence and filing noted below.

- Correspondence Reference Number 33120

Correspondence 33120 requested information on what modifications were performed on the device pursuant to Section 2.1043 of the FCC Rules.

The original grant specified that the certification was limited to the medium voltage couplers used in the original filing. This Class II Permissive Change application provides test data with a different model of coupler. The electronics remain the same.
