Notes on Cell Phone Use

Cell Phone Etiquette

The cell phone always emits weak radio waves when power is on.

Use the cell phone in an enjoyable and safe manner without forgetting to be considerate of others around you.

- **Use of cell phones is not allowed in some places.**
 - Do not use the cell phone while you are driving. Doing so is both dangerous and prohibited by law.
 - Using a cell phone in an aircraft is prohibited by law. Set Airplane Mode to *ON* and turn the cell phone power off.
- **Radio waves from cell phones may interfere with medical electrical equipment.**
 - Some people close to you in crowded places such as packed trains may be using a cardiac pacemaker. Turn the cell phone off in such places.
 - Abide by the rules of hospitals and other medical institutions where it is forbidden to use or carry cell phones.
- **Be considerate of where you use the cell phone and how loudly you talk.**
 - Do not make calls in theaters, museums, libraries, and other similar places. Turn power off or turn on manner mode not to disturb others around you by ring tones.
 - Do not use the cell phone on a street where you might interrupt the flow of pedestrians.
 - Move to areas where you will not inconvenience others on trains or in hotel lobbies.

- Refrain from talking in a loud voice.
- Obtain the permission of other people before you take their photos with the cell phone's camera.
- Do not record information with the cell phone's camera in bookstores and other locations where taking photos is not permitted.

Do Not Use the Cell Phone While Driving!

Turn off your cell phone or put it in Drive Mode while driving.

Do not use the cell phone while driving a car/motorcycle or riding a bicycle. It may result in a traffic accident. Using a cell phone while driving is prohibited by law. Using a cell phone while riding a bicycle may also be punishable by law.

Prohibited!

- Looking at a cell phone display
- Talking on a cell phone while holding it

Drive Mode

In Drive Mode, a Japanese message meaning "I'm driving now, so I can't answer your call." is played when a call is received, and asks the caller to leave a message on the answer memo.

When the standby screen is displayed, press , use  to select *Drive*, and then press  (Set).

Disaster Message Board Service

When a large scale disaster occurs, you can register your safety information from EZweb. The registered information can be referred from anywhere in Japan from EZweb or Internet.

Registering safety information

- When a large scale disaster occurs, from an au phone, you can register your safety information (i.e. your condition and comments) to the 災害用伝言板 (Disaster Message Board) created on the EZweb.
- After registration of your safety information, e-mail is sent to your family or acquaintances you have previously designated to notify that your safety information has been uploaded to the 災害用伝言板 (Disaster Message Board).

Inquiring for safety information

- You can inquire for safety information of a person by entering his/her phone number from EZweb or Internet.*
* To inquire from other carriers' cell phone, a PHS or PC, access "<http://dengon.ezweb.ne.jp/>".

Access	 ⇒ Top Menu/Search ⇒ 災害用伝言板 (Disaster Message Board)
	http://dengon.ezweb.ne.jp/

- Registered information is stored until the service set up for the disaster ends.
- The maximum available number of registrations is 10 per phone number. When the number of registrations exceeds 10, the oldest one is overwritten.
- The demonstration of this service can be referred to anytime by pressing  ⇒ Top Menu/Search ⇒ auお客様サポート (au Customer Support) ⇒ 調べる (Search) ⇒ 災害用伝言板 (デモ版) (Disaster Message Board (Demo Version)).
- To view the Disaster Message Board in English, select *English* from the top menu of the Disaster Message Board.

FCC Notice

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help and for additional suggestions.

Warning

The user is cautioned that changes or modifications not expressly approved by the manufacturer could void the user's authority to operate the equipment.

FCC RF EXPOSURE INFORMATION

Warning! Read this information before using your phone.

In August 1996, the Federal Communications Commission (FCC) of the United States, with its action in Report and Order FCC 96-326, adopted an updated safety standard for human exposure to radio frequency

electromagnetic energy emitted by FCC regulated transmitters. Those guidelines are consistent with the safety standard previously set by both U.S. and international standards bodies. The design of this phone complies with the FCC guidelines and these international standards.

Body-worn Operation

This device was tested for typical body-worn operations with the back of the phone kept 0.59 inches (1.5 cm) from the body. To comply with FCC RF exposure requirements, a minimum separation distance of 0.59 inches (1.5 cm) must be maintained between the user's body and the back of the phone, including the antenna. All beltclips, holsters and similar accessories used by this device must not contain any metallic components. Body-worn accessories that do not meet these requirements may not comply with FCC RF exposure limits and should be avoided.

Turn off your phone before flying

You should turn off your phone when boarding any aircraft. To prevent possible interference with aircraft systems, U.S. Federal Aviation Administration (FAA) regulations require you to have permission from a crew member to use your phone while the plane is on the ground. To prevent any risk of interference, FCC regulations prohibit using your phone while the plane is in the air.

Specific Absorption Rate (SAR) for Wireless Phones

The highest reported SAR values CAY01 are: CDMA modes (Part 22). Head: 0.255W/kg; Body-worn: 0.981W/kg

The FCC has granted an Equipment Authorization for this model phone with all reported SAR levels evaluated as in compliance with the FCC RF exposure guidelines. SAR information on this model phone is on file with the FCC and can be found under the Display Grant section of <http://www.fcc.gov/oet/ea/fccid> after searching on FCC ID TYKNX6610. Additional information on Specific Absorption Rates (SAR) can be found on the Cellular Telecommunications & Internet Association (CTIA) web-site at <http://www.ctia.org>.
