

LK1100 Wireless Keyboard & LM3150 Mouse Kit

Quick Installation Guide

Hardware Installation

1. Turn the mouse & keyboard upside down, then open their battery cover
2. Insert batteries, ensuring they are in the right type & direction.
3. Close their battery cover
4. Plug receiver into computer's port. The " Lock LED " light turns on.

ID Code Configuration

Your PC must be on to change the ID setting.

1. Press ID button on the side of the receiver once.
2. Press ID button on the bottom of the mouse once.
3. Press ID button on the bottom of the keyboard once.

This ID-recognition function helps to protect against interference from other RF keyboard/mouse in the same environment. Remember to set the ID when you replace the batteries or your keyboard/mouse kits do not work properly.

Important

1. Whenever you insert batteries, always make sure both of them are new. Alkaline batteries are recommended.
2. Use the mouse on a clean, flat, non-slippery surface in order to ensure smooth and accurate cursor action.

Mouse power management:

1. Whenever you insert batteries or push the ID reset key on mouse, the power-on mode always starts on. & the " Sensor LED " light turns on.
2. Whenever you are continually pushing the ID reset key on mouse over 5 seconds, the power-off mode always starts on. & the " Sensor LED " light turns off.

Warning: There will be a risk of explosion if you use different types of batteries at the same time (such as alkaline battery plus rechargeable battery)

Notice : The changes or modifications not expressly approved by the party responsible for compliance could void the user' s authority to operate the equipment.

IMPORTANT NOTE: To comply with the FCC RF exposure compliance requirements, no change to the antenna or the device is permitted. Any change to the antenna or the device could result in the device exceeding the RF exposure requirements and void user' s authority to operate the device.

FCC INFORMATION

The Federal Communication Commission Radio Frequency Interference Statement includes the following paragraph:

The equipment has been tested and found to comply with the limits for a Class B Digital Device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instruction, may cause harmful interference to radio communication. However, there is no grantee that interference will not occur in a particular installation. If this equipment dose cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on , the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The user should not modify or change this equipment without written approval from Linkworld Electronic Co, Ltd. Modification could void authority to use this equipment.

THIS DEVICE COMPLIES WITH PART 15 OF THE FCC RULES. OPERATION IS SUBJECT TO THE FOLLOWING TWO CONDITIONS: (1) THIS DEVICE MAY NOT CAUSE HARMFUL INTERFERENCE AND (2) THIS DEVICE MUST ACCEPT ANY INTERFERENCE RECEIVED, INCLUDING INTERFERENCE THAT MAY CAUSE UNDESIREED OPERATION.
