

A D T

## OPERATIONAL DESCRIPTION

This device is a Wireless Long Range Multi-function 7+1 AP, which operates in the 2.4GHz frequency spectrum with throughput of up to 108Mbps which OFDM technique will be applied. If the signal to noise radio is too poor which could not support 108Mbps, the 11Mbps data rate with DS-SS technique will be applied.

The transmitter of the EUT is powered by adapter or POE. The antenna is dipole antenna with R-TNC antenna connector.

For more detailed instruction, please take a look at the user's manual.
