**Subject:** RE: MESSAGE/mflom/U3K-AJ420\_ATCB004966

Hi Jackie

I have not received the answers to the PBA questions sent to Hoosam on the 18th. He was to provide me with the following:

- 1        was the device tested at maximum audio input?
- 2        how was the tuning range tested at the time of test to show the device could not tune beyond the allowed band?
- 3        a photo showing the antenna and answering the question about the hack (J103) on the schematics
- 4        correction of either the schematics or operational description as to L102.

Once I get these answers an can proceed with the PBA to the FCC.

Thanks

Dennis Ward  
Evaluation Engineer  
American TCB
