

To Whom It May Concern:

4/30/2007

- 1) This letter is to certify that the module submitted for approval as FCC ID U3V6221020 is electrically identical to the V1.10 board submitted for electrical testing. Revision from V1.10 to V1.11 was to change the side of the board for the silkscreen used to indicated placement of the cordwood pins as the are and were actually placed. Revision from V1.11 to V1.12 was to add a silkscreen of the FCC ID number so as to comply with Part 15 of the FCC Rules.

Sincerely,

A handwritten signature in dark ink, appearing to read "Michael Haynes", with a stylized flourish at the end.
