Because the majority of the device housing is composed of display, operating controls. And product design has extremely limited space available to attach the required label carrying the FCC identifier. For this reason, TeleEpoch Limited proposes placing the label carrying the FCC identifier inside the product as shown in figure 2.

The consumer packaging for these models is a "gift box" which does not allow the device to be seen at time of purchase. In order to meet the requirements of 47CFR Part 2.925 (d), TeleEpoch Limited will add the FCC identifier " U46-D5" to the outside of the consumer "gift box" packaging.
