**WISE & BLUE**

New Release by  
**WISE & BLUE**

## INTRODUCTION

### Bluetooth® wireless technology

Bluetooth wireless technology allows you to connect compatible communication devices without cables. A Bluetooth connection does not require that the phone and the headset be in line of sight, but both devices should be within 10meters(33 feet) of each other. Connections can be subject to interference from obstructions, such as walls, or other electronic devices. The headset is compliant with the Bluetooth Specification 2.0 supporting the following profiles : headset profile and Hands-Free Profile. Check with the manufacturers of other devices to determine their compatibility with this device. There may be restrictions on using Bluetooth technology in some locations. Check with your authorities or service provider.

## WMA300 PACKAGE CONTENTS

User Guide

## III GETTING STARTED

### WMA300 Overview

Bluetooth Headset WMA300

### Charge your Headset

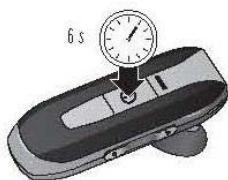

- 1 Make sure that your headset is fully charged before you start using it.
- 2 Plug the charger cable into the Charging Socket.
  - The red LED turns on when the headset is charging (if the headset is completely discharged, it may take a couple of minutes for the LED to turn on). When the headset is fully charged (about 2 hours), the red LED turns off.
  - When battery power is low, the red LED starts to flash and you can hear beep.

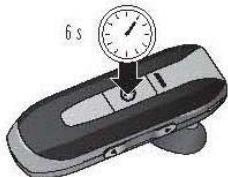

4 | 5

### Turning your headset on and off

To turning on : Press and hold for 6 seconds the call button until the LED flashes Blue.

To turning off : Press and hold for 6 seconds the Call Button until the LED flashes Red.

Bluetooth Headset WMA300

### Pair it with your phone

Before you use the headset, you need to pair it with your phone.

- 1 Turning on the headset.
- 2 Fold the earpiece and then you can see the LED flashes alternately Blue and Red.

- 3 When the LED starts to flash 'Blue and Red', set your phone to discover "WMA300"

6 | 7

## Wearing the Headset

### 4 Set your Bluetooth phone to discover the "WMA300"

A) Follow your phone instruction guide

- Going to Bluetooth menu on your phone and selecting the option to 'discover' or 'connect' a Bluetooth device (and select the "Handsfree" mode if your phone ask).

B) Your phone will find the "WMA300"

- If you want to pair with it, press 'YES' or 'OK' on the phone.
- Enter the passkey or PIN = 0000(4 zeros) and press 'YES' or 'OK' on the phone.
- Once connected to your Bluetooth phone, The LED flashes Blue.
- Your headset is now set up and ready to be used.

**Note**

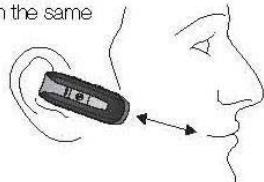

- 1) It is better to try pair your headset with the phone close-by.
- 2) Once you have paired your headset with the phone, You don't need to pair it again until you want to use it with another phone.
- 3) In case of unsuccessful pairing, repeat steps 2 to 3.
- 4) Blue and Red flashing (Pairing Mode) will return to Stand-by mode (the LED flashes Blue) if not paired in 10minutes.

### 1 To wear the headset, Fold the earpiece.

### 2 Plug the headset into your ear and point the headset toward your mouth.

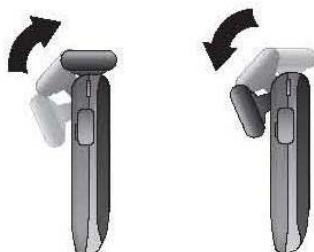

For optimal performance, wear the Headset and your phone on the same side of your body.

## Using your Headset

### 1 Hold

- Call button is locked when the earpiece is unfolded. It can prevent unwished call.
- All the functions except power On/Off do not work in "Hold" Mode.

Hold Mode

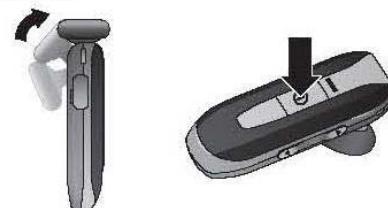

### 2 Answer a call

## Troubleshooting

If you cannot connect the headset to your phone, do as follows :

- Ensure that the headset is charged, switched on, and paired with and connected to your phone.
- Ensure that the Bluetooth feature is activated on your phone.
- Check that the headset is within 10 meters (33 feet) of your phone and that there are no obstructions between the headset and the phone, such as walls or other electronic devices.

## Taking care of your headset

- Keep all accessories and enhancements out of the reach of small children.
- Keep the device dry. Precipitation, humidity, and all types of liquids or moisture can contain minerals that will corrode electronic circuits. If your device does get wet, allow it to dry completely.
- Do not use or store the device in dusty, dirty areas. Its moving parts and electronic components can be damaged.
- Do not store the device in hot areas. High temperatures can shorten the life of electronic devices, damaged batteries, and warp or melt certain plastics.
- Do not store the device in cold areas. When the device returns to its normal temperature, moisture can form inside the device and damage electronic circuit boards.
- Do not attempt to open the device
- Do not drop, knock, or shake the device. Rough handling can break internal circuit boards and fine mechanics.
- Do not use harsh chemicals, cleaning solvents, or strong detergents to clean the device.

--- Additional documents ---

## **Caution**

Modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

## **Information to User**

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/ tv technician for help.
