Munich, 21 May 2009

We hereby CHARISMATHICS GMBH ask to grant AN EXTENSION of the GRANTEE for the product type USB KEY mod. PLUG'N'CRYPT U5Y-AAB that was already homologated on 10 July 2007 with FCC IDENTIFIER U5Y-AAB.

We ask to maintain the same fcc identifier also for the new USB KEY because the only changing component is the microprocessor. The old microprocessor (CIUP+SM321ELGA) will be replaced from a new one (CIUP+SM321CCLGA-LF) produced by the same manufacturer.
