Subject: Extended Frequencies Justification

Dear Sir/Madam

The SB2025NT was designed to operate in the frequency band 146.000 to 174.000 MHz. To aid authorization in other countries that accept the United States FCC Grant of Certification, this will service as a request that the FCC list the frequencies 146.000 to 174.000 MHz under the FCC rules Part 90 on the FCC Grant.

For the FCC's Rules Parts 90 applications, this radio is used by Federal and Public Safety agencies including Police, Fire and Emergency Medical Services, etc.

Equipment programming is the responsibility of Authorized Service Personnel only. In addition, the radio complies with 47 CFR Part 90.203(e) in that the operator cannot directly program the transmit frequencies using the normally accessible external controls.

Per the FCC's KDB634817 guidance, as an alternative to list the exact frequencies, we acknowledge that it's a violation of the FCC Rules if this device operates on unauthorized frequencies.

Yours faithfully

**Richard Stimson**
