

Set up photo

- The radiation pattern, antenna gain, heat map and 3D spherical by SATIMO SG24 chamber as below picture.

Test Setup for Radiation Pattern

Measurement

Chamber Information

- SATIMO SG-24L Multi-Probe Antenna Measurement System

- Angle between probes: 15°
- Frequency range: 400 MHz – 9 GHz
- Chamber Room Size: 5m L x 5m W x 5m H

SATIMO SG-24
