

**Empowering the World's Broadband™**

17 May 2007

Attention: Application Examiner  
Re: Request for confidentiality

Applicant: International Broadband Electric Communications, Inc. (IBEC, Inc.)

FCC ID: [U9TLCCAU10007](#)

To whom it may concern,

Request is hereby submitted by IBEC, Inc. to withhold permanently from public review certain portions of the application for equipment certification for the referenced FCC identifiers. This request for confidentiality is made pursuant to 47 CFR 0.457(d) and 0.459 of the FCC Rules. In particular, the following sections of the application are to be kept permanently confidential:

- Schematics
- User Manual
- Detailed Block diagrams
- Detailed Operational/Functional Description
- Internal photos

Rationale for request for confidentiality:

IBEC, Inc. has invested considerable time and materials in research and development to produce the referenced product. Disclosure of the permanently confidential portions of this application to competitors would not only give them significant competitive advantages in developing similar products, but would also disclose successful implementation of unpublished, leading edge technology developed by us. Additionally, the internal components are encapsulated in a sealed (potted) enclosure and, as such, are not available for inspection by the public. Finally, the devices are professionally installed by contractors subject to our Non Disclosure Agreement.

The fee for confidentiality has been submitted along with the fee for certification. If you have questions or need further information, please contact the undersigned.

Sincerely,

Brent R. Zitting  
Vice President of Engineering  
IBEC, Inc.  
285 Dunlop Blvd. SW, Suite K  
Huntsville, AL 35824-1103
