Request for Confidentiality

Gentlemen:

Pursuant of the provisions of Rule parts 0.457 and 0.459, RSI hereby requests confidentiality of the Block Diagrams, Circuit Diagrams, Circuit Description, Parts List, and Operational Description attachments for the subject application submitted.

These documents contain detailed system and equipment description and related information about the product, which RSI considers being proprietary, confidential, and a custom design and, otherwise, would not release to the general public. Since this design is a basis from which future technological products will evolve, RSI considers that this information would be of benefit to its competitors, and that the disclosure of the information in these documents would give competitors an unfair advantage in the market.

Sincerely

Pascal RENARD
Product Manager
