Overview

This application is for a full modular approval of a transceiver operating under FCC rule part 15.247. The FCC ID: is UAG-RM1. The device uses a single chip antenna soldered to the circuit board. The device satisfies the RF Exposure requirements to operate as a mobile device and will not be used closer than 20 cm to any person. The device meets the requirements of 15.212 to operate as a full modular device.

Confidentiality requested for allowed files. Request is properly addressed and referenced.

A letter listing the applicable modular requirements was submitted.

Recommendation

All items have been resolved and completed to my satisfaction; therefore I recommend this application for approval.
