Useful Tips for Bluetooth connection

1. Should your cellphone battery be at low charge, the Bluetooth connection may occasionally be lost. To maintain good connectivity ensure that your phone battery is adequately charged.
2. In case of failure of Bluetooth pairing
 - 1) Delete item in paired list on your Bluetooth phone
 - 2) Reset both phone and handsfree by switching off / on
 - 3) Reset pairing as per procedure
3. Connection not established after pairing
 - ➔ Manually connect from the paired phone
 - i.e. My paired device ➔ UBFree2 ➔ Connect
4. How to establish re-connection after pairing
 - ➔ Press "SEND" button briefly
 - ➔ Press and hold "END" button for 3 seconds

The handsfree unit will re-connect automatically thereafter.

FCC Information

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This Device may not cause harmful interface, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for CLASS B digital device, pursuant to Part 15 of FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try correct the interference by one or more of the following measures:

- 1.1. Reorient or relocate the receiving antenna.
- 1.2. Increase the separation between the equipment and receiver.
- 1.3. Connect the equipment into an outlet on a circuit different from that to which receiver is connected.
- 1.4. Consult the dealer or experienced radio/TV technician for help.

WARNING

Changes or modifications not expressly approved by the manufacturer could void the user's authority to operate the equipment.
