

Dear Tim

Below is our reply for your comments.

1. The User Manual have been corrected the antenna gain to 6 dBi;
2. We modified the User Manual to state: "User can not modify anything about firmware".
3. We have corrected the RF exposure report.
4. RF exposure report have been modified and composite RF density.

And revised documents are on website now.

If you have further comments, please advise me.

Best regards

Micki
