**Volume Up:** 1.Increase Volume

**Volume Down:** 1.Decrease Volume

**Federal Communications Commission (FCC) Statement**

15.21

You are cautioned that changes or modifications not expressly approved by the part responsible for compliance could void the user's authority to operate the equipment.

15.105(b)

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Operation is subject to the following two conditions:

- 1) this device may not cause interference and
- 2) this device must accept any interference, including interference that may cause undesired operation of the device.

FCC RF Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. End users must follow the specific operating instructions for satisfying RF exposure compliance. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

**Technical Features:**

- Wireless Bluetooth\* technology.
- Built in Bluetooth\* module to support a variety of Bluetooth\* compatible mobile phones.
- Can be used as a VoIP phone or used as computer speakers.
- DSP full duplex hands free conversation with digital echo cancellation and background noise reduction for superior sound and voice quality.
- 30ft. range of operation.
- Talk time: 8 hours max
- Standby time: up to 150 hours max
- Auto Shut-off feature when disconnected for longer than 30 minutes.

**Technical Specs:**

Standard Bluetooth	1.2 specification
Frequency band:	2.4G Hz ~ 2.4835G Hz ISM band
Working distance:	30ft.
Output power:	0dBm (class 2)
Power consumption:	10 mA ~ 20mA (Standby)
Output consumption :	100 mA ~ 350mA (Working)
Total output power :	2 W
Charge time :	4 Hour

**Operation Guide:**
