RE: FCC ID: UEV-5GXI\_ATCB004697

Attention: Kathy Grzovic

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1 Please note that page 3 of the operational description indicates that this device operates in the 5.15.3GHz UNII bands as well as the 5745-5825 MHz 15.247 bands. Please note that no test data has been provided for the 5.1-5.3GHz UNII bands. Please either explain and remove this from the operational description or provide the necessary test data for the 5.1-5.3 UNII bands. Please note that if the device does operate in the 5.1-5.3GHz UNII bands, DFS testing will be required and the application would have to be submitted directly to the FCC.

Response: The device does not operate in the 5.1-5.3 GHz UNII bands. Please refer to the revised operational description uploaded with this response.

2 Please note that the non-modification statement per 15.21 of the FCC rules cannot be found in the manual. Please provide a manual that contains this statement or please point to the page on which this statement has been placed.

Response: Please refer to the revised manual uploaded with this response.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
