Correspondence Number	Memo
T64283000902-1	<p>1) The grantee code used on the application is invalid for the applicant. Respose: the Grantee code has been revised in the application. 2) An invalid grantee code is used on the FCC ID. Response: The FCC ID Label has been revised to show the correct grantee code. 3) The testing was only done in the battery powered mode, but the user manual mentions that it can be AC powered. Please provide the additional test data to support use in the AC powered mode. Response: The unit can only operate in DC powered mode (battery) and the owner's manual has been revised to remove the reference to AC Power. 4) Please indicate compliance with the voltage variation requirements of section 15.31(e). Response: The unit can only operate on DC power (see item #3)</p>
