

ADVENTURE FORCE HOT ROD RACER

IMPORTANT

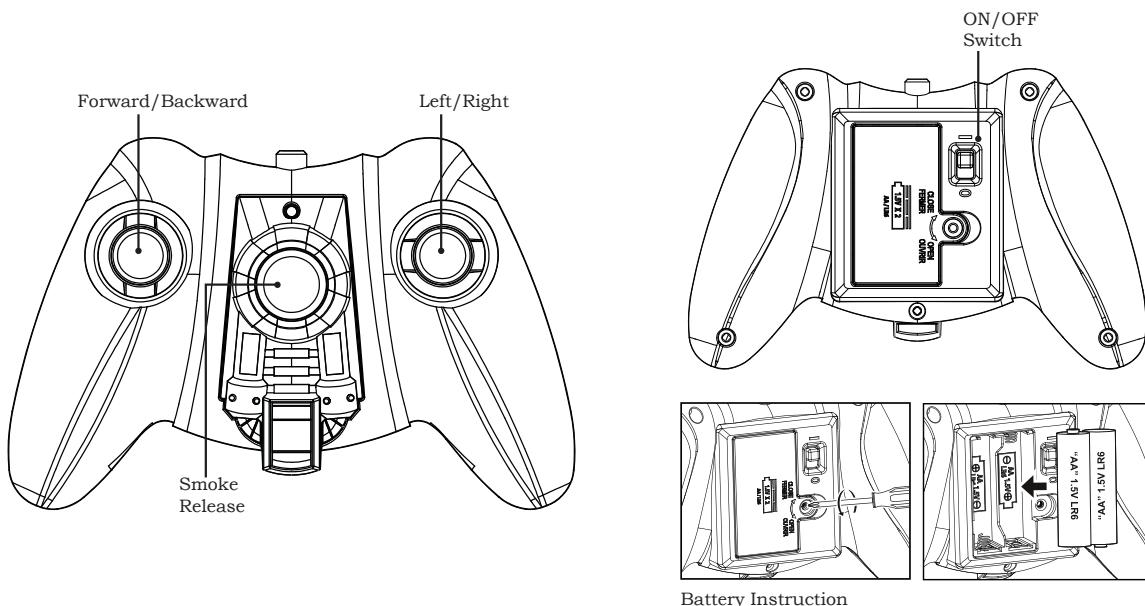

READ THIS MANUAL before attempting to operate the device.
SAVE THIS MANUAL. This manual contains important operating instructions for this device.

PARTS DETAIL

RACER

REMOTE CONTROLLER

INSTRUCTIONS

1. Turn the Switch on Racer to **ON** position, and turn the Switch on Remote Controller to **ON** position. Then the Racer is ready to go.
2. If you do not want any sound effect during play, turn the Switch on Racer to **MUTE** position to play in Mute mode.
3. Please use the Gas Tank that comes with this set to add Water to the Racer. Please only add around 6 drops in an empty water container.
DO NOT over fill the water container.
4. Only use this product with clean, room temperature water.
5. Do not use salt water or soapy water.
6. After playing, remove the water cover and put the Racer upside-down to remove any remaining water.
7. For better Battery life, turn the Switch on Racer to **OFF** position, and turn the Switch on Remote Controller to **OFF** position after play.

BATTERIES SHOULD BE REPLACED UPON PURCHASE FOR OPTIMAL PERFORMANCE.

DO NOT MIX OLD AND NEW BATTERIES.

DO NOT MIX ALKALINE, STANDARD (CARBON-ZINC) OR RECHARGEABLE BATTERIES.

REMOVE BATTERIES FROM INFREQUENTLY USED DEVICE BETWEEN USES.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE: This equipment has been tested and found to comply with the limits for a ISM device, pursuant to part 18 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

1. This device may not cause interference.
2. This device must accept any interference, including interference that may cause undesired operation of the device.

Cet appareil contient un ou des émetteurs/récepteurs qui sont exempts de licence et qui se conforment aux CNR relatives à divers types d'appareils radio exempts de licence d'Innovation, Sciences et Développement économique Canada (ISDE). Le fonctionnement est soumis aux deux conditions suivantes :

1. Cet appareil ne doit pas causer de perturbation radioélectrique.
2. Cet appareil doit accepter toute perturbation, y compris celles susceptibles de provoquer un fonctionnement indésirable de l'appareil.
