Re: FCC ID: UGL622ANH

To Whom It May Concern:

The following application is submitted on behalf of our client, DRS Tactical Systems, Inc., for evaluation of FCC ID: UGL622ANH under a class II permissive change.

The purpose of this application is to add single modular approved FCC ID: UGL622ANH to the DRS Tactical Systems, Inc. portable ARMOR X7 ruggedized tablet computer. The ARMOR X7 ruggedized tablet computer with FCC ID: UGL622ANH was evaluated for RF exposure with results provided in the SAR report included in this application.

The ARMOR X7 ruggedized tablet computer also contains single modular approved FCC ID: UGLGOBI2 and FCC ID: QDS-BRCM1043. These modules can transmit simultaneously with FCC ID: UGL622ANH. The ARMOR X7 has been evaluated for radiated inter-modulation products for all combinations of simultaneous transmission and found to be in compliance.

Details of the ARMOR X7 ruggedized tablet computer are included in the user's guide, external photographs, internal photographs, and labeling information provided in this application.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'. The signature is written in a cursive, flowing style.
