

- 1.) Please provide 15.19 statement in user manual.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

The FCC ID label has 15.19 statement.

No need to add it in user manual.

- 2.) Page 6/11 of test report the calibration tables does not show the loop antenna used to test the fundamental measurements. Please include this in the test report.

Loop antenna calibration table has been added to page 6/11.

- 3.) Page 8/11 says that the EUT was tested with a Bilog antenna this should also include loop antenna for all measurements below 30 MHz. Please revise test report.

The remark has been added to page 8/11.

The amendment report uploaded to website.
