Question #1: Please explain model difference between MMI-1R and MMI-1RE.

The external photos show the difference in appearance, are they sharing all components except outer cases? Please indicate clearly in the test report.

Question #2: The test report indicate no support equipment was used during the test, but test setup photos show MP3 player was used. Please update the test report.

Question #3: The test report - summary of dwell time, the max dwell time in DH1/DH3/DH5 mode is incorrect. Please update.

Question #4: The user manual does not contain any regulatory statement. Please update the user manual.

Best Regards,
Helen Zhao
