### Declaration about Restriction of WLAN Function

Date: June 19, 2014

UL Japan, Inc.  
4383-326 Asama-cho, Ise-shi,  
Mie 516-0021 Japan

FCC ID : UJHNR244245BTWL  
Applicant: Mitsubishi Electric Corporation Sanda Works

To whom it may concern:

We hereby declare that our products, NR-244UH and NR-245UH will be provided without WLAN function at the time of sales in the U.S.A.

The embedded wireless module of NR-244UH and NR-245UH has Bluetooth and Wireless LAN functions.

However, for NR-244UH and NR-245UH, the software is always installed to stop the WLAN function, when they are manufactured at the factory before shipment.

After installation of the software, the icon for using WLAN function is disappeared from their operating panel. Therefore users cannot operate WLAN function.

Furthermore, it is impossible for users to change the software by themselves.

Sincerely,

A handwritten signature in black ink, appearing to read "K. Otani".
