FCC ID: **ULHRADARNODE-01**

Product Name: **RADARNODE**

Model Name: **RN1**

Trade Name: **RADARNODE**

Dear Sirs,

With reference to the above application, I hereby supply additional information to support the application.

The RADARNODE product is designed to work in conjunction with a product called the **Escort Passport 8500 X50**. Together, the RADARNODE and the Escort Passport 8500 X50 operate as a system.

The Escort Passport 8500 X50 product is equipped with an automatic muting facility as standard. This automatic muting facility ceases the audio output of the Escort Passport 8500 X50 within 4 seconds of initial activation.

This ensures that the RADARNODE product automatically ceases transmission in under 5 seconds from initial activation. This action is performed automatically by the connected device.

Best regards,

A handwritten signature in black ink that reads "Stuart Smith".
