---

Date: Nov. 8<sup>th</sup>, 2012

Attention: Application Examiner / Reviewing Engineer

Subject: Notification of the function of USB port

Applicant: Gaon-Int Co., LTD., GBR-100

To whom it may concern,

The USB connector of data pins of this product is not for USB communication with PC. The device can't be connected to a PC for data transfer. This is for re-writing CPU when CPU has a problem. Additionally, re-writing CPU is possible to use special device and program

If you have any question, please feel free to contact us.

Sincerely Yours,

---
