RE: Wanco, Inc.

FCC ID: UQXWRDR432

After a review of the submitted information, I have a few comments on the above referenced Application.

- 1) Your response regarding the AC line conducted measurements and installation environments are understood. However the device is not designed such that it is only connected to a battery and there is no assurance that a device approved such as this will only be utilized in the configuration stated unless appropriately approved under a LMA (limited modular approval). If this device is only approved for use in Wanco devices, then a Limited Modular approval limiting the use of the device to within Wanco integrated installations can be considered but would require an appropriate cover letter covering the LMA issues. Please

Timothy R. Johnson
Examining Engineer
